# WHAT WE DO

We're proud to be an asset management company whose culture is driven by strong values and a long-term vision. At Equinox Trust Limited, our vision, mission and core values serve as the catalyst in our relations with our clients, employees, shareholders and in the communities in which we live and work. They are our guiding compass in our business each day.

Equinox Trust Limited is dedicated to helping investors around the world reach their desired investment goals and broaden their financial horizons.

We provide investment products and solutions to our clients across the world. Our breadth of investment capabilities is extensive and among the most innovative within the market.

We're a truly global asset manager, with offices in over 40 locations and investment centres in more than 20 locations.

Investment involves risk. The value of investments, and the income from them, can go down as well as up and an investor may get back less than the amount invested. Past performance is not a guide to future results.

Equinox Trust Limited was founded on a simple but revolutionary idea that an investment company should be run for the sole benefit of its investors. And so Equinox Trust Limited was designed to be different, removing outside owners and outside interests from the equation.

Because of our investor-owned structure, Equinox Trust Limited's success can only be measured by your success. Low costs, a long-term orientation, and focus on your goals are at the core of Equinox Trust Limited's investing philosophy, and not just because they sound good. They're essential to our approach because they're essential to the thing that really matters to you: the opportunity for investment success. So however you shape your portfolio, you can be sure that these principles run through everything we do.
